

# Individuell reflektion 6 - Henrik Tao

27/05/2019

## **What do I want to learn or understand better?**

For the next project I wish to use and learn more about the best practices of scrum. To achieve even better understanding of scrum and agile work process I want to participate in an even bigger project.

## **How can I help someone else, or the entire team, to learn something new?**

Same as previous weeks, host workshops, share what I have been learning.

## **What is my contribution towards the team's use of Scrum?**

In later projects I want to learn even more about the agile working process. Have a longer period to discover even more advantages and disadvantages in working agile.

## **What is my contribution towards the team's deliveries?**

Push-notification when deleting and unclaiming an ad. And some designing.
