Individuell reflektion 5 - Henrik Tao

19/05/2019

What do I want to learn or understand better?
I want to learn how to use CSS to style an android application to improve the design on the application.

How can I help someone else, or the entire team, to learn something new?
If I learn how to use CSS to design an android application I can host a workshop sharing my expertise.

What is my contribution towards the team's use of Scrum?
I am active in discussions about scrum agile practices. About which practices to use and which are not relevant for the team. By using the agile practices I have contributed to the team's use of Scrum.

What is my contribution towards the team's deliveries?
I have pairprogrammed with a team member and implemented user profile and its features.
